31 May 2005

Dear Shareholder

Introduction

Your board announced on 29 March 2005 that the Company had entered into a conditional sale and purchase agreement to acquire the entire issued share capital of Event Data Correlation Limited for a consideration of 134,166,667 new Ordinary Shares, equating to £15.094 million based on the closing middle market price of an Ordinary Share of 11.25p on 2 March 2005, the date of the Suspension. In addition the Company announced that it is seeking to raise up to £675,000 through the issue of 5,625,000 Commitment Shares and that subject to completion of the Acquisition it has raised £250,000 through the issue of 4,166,667 Placing Shares. Following completion of the Acquisition, the Sellers will own, in aggregate, 72.11 per cent. of the Enlarged Share Capital.

In view of the size and nature of the Acquisition in relation to the Company, the transaction is a reverse takeover under the AIM Rules and therefore requires the prior approval of shareholders at the EGM. Additionally, because the Concert Party will own more than 30 per cent. of the Enlarged Share Capital the Company is seeking a waiver under Rule 9 of the City Code which would otherwise require the Concert Party to make a general offer to acquire those Ordinary Shares that it does not own. A resolution seeking the approval of the Waiver by shareholders voting on a poll will be proposed at the EGM.

The purpose of this document is to provide you with information on the Acquisition and to explain why the Directors consider it to be in the best interests of the Company and its shareholders as a whole and why they recommend that shareholders vote in favour of the Resolutions to be proposed at the EGM. If the Resolutions are duly passed at the EGM, the Company's existing trading facility on AIM will be cancelled and the Company will apply for the Enlarged Share Capital to be admitted to trading on AIM.

The Company

GGT was incorporated in England on 16 July 2004 and was admitted to AIM as an investment company on 29 November 2004 when it raised £675,000 before expenses, by way of a placing at 4p per share. The Company was established to build, through acquisition, a group specialising in providing enabling technologies for gaming markets. In the Company's AIM admission document of 15 November 2004, the Directors stated their intention to build the business by investing in early stage technology companies operating in the gaming sector. The Directors believe that the Acquisition satisfies the Company's stated investment strategy.

Event Data Correlation Limited

EDC

EDC was incorporated in England on 3 September 2003. It was established by Paul Pullinger, Chris Cleverly and Dominic Johnson to develop technology to exploit real-time statistical data from the global sports and events betting markets. EDC operates from premises in London; it employs ten full time staff and two part time staff.

The opportunity

Just as stock markets have moved from paper based trading to electronic trading, the betting industry is increasingly focused on online and remote betting. In addition, instead of just being a one-way leisure purchase, bets are also considered as contracts for value expiring on a defined date that can change in value and, with the advent of betting exchanges, can be bought and sold. There are, however, very few facilities available for non leisure or trade participants in the betting markets because, among other reasons, suitable pricing and settlement systems do not exist and normalised data is not readily available in a timely manner. The absence of these factors presents EDC's opportunity.

EDC's business strategy

EDC develops software to exploit the global market for the electronic dealing of bets.

EDC has developed software to exploit the fast-growing, global online betting market. EDC's proprietary aggregation and correlation software identifies and exploits trading opportunities from the vast amounts of online sports betting data and capitalises upon the opportunities offered within this market.

EDC has acquired under licence and further developed a software platform that aggregates and correlates vast amounts of online sports betting data in order to capitalise upon the dynamics and opportunities offered by the fragmented and fast-growing online betting market. The technology monitors real-time event-based data to identify price discrepancies. Trading is then undertaken using the software. Using this technology, EDC plans to generate income from a number of revenue streams:

- **Statistical trading** – i.e. taking advantage of price discrepancies in a similar way to money market hedging on financial markets.
- **Trade hedging** – facilitation of inter-party transactions to balance the books of betting counterparties to enable them to reduce their exposure.
- **Data sales** – sales of market data to media organisations, websites and traders.

Concurrent with this work, EDC plans to extend the range of counterparties from which it takes feeds of odds and volumes and with whom EDC trades.

The technology

EDC has focused its development programme to date on creating a technology platform (MEDCAS) to enable global market scoping and testing across different sports and with numerous betting counterparties. This platform normalises incoming live price data across different sports betting markets and applies multiple scenarios in its correlators. Trading opportunities arise due to differentials in price and balance.

Based on the knowledge gained and data collected from extensive test trading using the MEDCAS platform and subsequent analysis of the results, EDC has developed direct interfaces with a number of counterparties.

The underlying infrastructure referred to above has been further developed to create an automated platform for trading across multiple events. This is a scalable software platform, designed to collect, correlate and effect trades on sub-second statistical data derived from multiple counterparties. The platform has its own internal security facilities to prevent unauthorised use or access and includes automated configuration features specific to each market. The platform allows traders to continuously analyse, evaluate and respond to market events. Real-time reporting functionality will provide information to EDC's traders, systems administrators and compliance officers.

A further period of development will be undertaken to extend the number of counterparties and events from which data can be aggregated and correlated and additional applications and scenarios created.

Given the global nature of the online sports and event-based betting market, EDC's technology has been designed to be scalable and to be deployed in multiple languages and across any global sport or event for which online data is available, including events which have been seen to be of interest to participants in the fast growing Asian gaming markets.

EDC's trading history

To date, EDC's data collection from feeds from counterparties has allowed it to devise clear trading strategies. From data collected, EDC has:

1. isolated sports and markets which offer the highest number of individual statistical trading opportunities;
2. identified sports and markets which offer the highest yield in terms of gross statistical trading opportunities;
3. assessed trends in terms of the time at which the statistical trading opportunities occur during the lead up to and during events of a particular type; and
4. isolated parallel trading strategies across each sport where those statistical trading opportunities occurred.

To date, EDC's trading has been on a trial or development basis only. The Proposed Directors anticipate EDC commencing statistical trading in the first quarter of 2006.

Financial information on EDC

An accountants' report on EDC is set out in part 4 of this document. As at 6 March 2005 EDC had incurred expenditure of £910,000 principally in respect of the development and testing of its software and employee costs. As at 6 March 2005 the net assets of EDC were £27,000.

Terms of the Acquisition

Pursuant to the Acquisition Agreements, the Company has conditionally agreed to purchase the entire issued share capital of EDC through the allotment and issue of 134,166,667 new Ordinary Shares equating to £15.094 million based on the closing middle market price of an Ordinary Share of 11.25p on 2 March 2005, the date of the Suspension. Following completion of the Acquisition and the Proposals, the Sellers will, hold 134,166,667 Ordinary Shares representing 72.11 per cent. of the Company's issued ordinary share capital.

The Acquisition Shares will rank equally with the Existing Ordinary Shares. The Acquisition Shares, however, will be subject to the lock-in and orderly market arrangements set out in more detail in paragraphs 7.1.10 and 7.1.13 of part 6 of this document.

The Acquisition is conditional on, amongst other matters, the passing of the Resolutions at the EGM, including the approval of the Waiver, and Admission.

Further details of the Acquisition Agreements are set out in paragraphs 7.1.9 and 7.1.10 of part 6 of this document.

Current trading and prospects of the Enlarged Group

Since its incorporation in July 2004, the Company's only significant activity has been to obtain admission to trading on AIM and to enter into conditional agreements relating to the Acquisition. The Company raised £541,250 net of expenses on its admission to AIM. Financial information on the Company is set out in part 3 of this document.

EDC's development of its technology over the last 12 months has proved that the technology has the potential to operate over multiple betting platforms. The success of the development gives the Proposed Directors confidence in EDC's business model and therefore in its prospects.

The Directors and Proposed Directors are committed to the investment strategy set out in the Company's AIM admission document dated 15 November 2004, which is that the Group will make investments through the acquisition of companies or interests in companies that provide enabling technologies to the gaming sector. The Directors and Proposed Directors believe that the combination of a continuation of this strategy, the Acquisition, the Commitment, the Placing and the associated Admission, gives the Board reason to be optimistic as to the Enlarged Group's prospects.

The Commitment and the Placing

On publication of this document, the Company will approach those individuals with obligations under the Commitment to seek to raise up to £675,000 before expenses through the issue of up to a further 5,625,000 Ordinary Shares at 12p per share. At the time of the Company's admission to AIM on 29 November 2004, the Company effected the placing of 16,875,000 Ordinary Shares at the placing price of 4p per share ("Original Placing"). It was a term of the Original Placing that each placee is obliged to subscribe for one further Ordinary Share in the Company for every three Ordinary Shares subscribed for by them in the Original Placing, conditional on the completion of the acquisition by the Company of its first "Target Company". EDC is a "Target Company" and therefore the Company will enforce its rights under the Commitment.

Completion of the issue of any Commitment Shares is conditional upon the passing of the Resolutions proposed at the EGM and admission of the Commitment Shares to trading on AIM.

In addition on completion of the Acquisition, the Company will raise £250,000 through the issue of a further 4,166,667 Ordinary Shares.

The proceeds of the Commitment and the Placing will be used to meet costs associated with the Acquisition and to provide general working capital for the Enlarged Group.

The Commitment Shares and Placing Shares will rank equally with the Acquisition Shares and the Existing Ordinary Shares and in full for any dividends and other distributions paid or made in respect of the ordinary share capital of the Company after their issue.

The Board

At the EGM, Resolutions will be proposed, conditional on obtaining Shareholders' approval of the Acquisition, to appoint Ron Trenter as non-executive chairman of the Company, Paul Pullinger as chief executive officer, Dominic Johnson as an executive director and Chris Cleverly as a non-executive director. At this time, Graham Porter and John Leat will each assume the role of an independent non-executive director.

He then subsequently took charge of launching a number of new media and technology ventures for a \$2bn valued privately held company.

Lock-ins and orderly market arrangements

Following the Acquisition and Admission the Directors and Proposed Directors will in aggregate be interested in 89,212,429 Ordinary Shares which will represent 47.95 per cent. of the Enlarged Share Capital. Details of these shareholdings are set out in paragraph 5.1 of part 6 of this document. The Directors, Proposed Directors and the Sellers have undertaken to the Company and Canaccord that, except in limited circumstances (set out in paragraphs 7.1.10 and 7.1.13 of part 6 of this document), they will not sell or dispose of any of their Ordinary Shares for a period of 12 months from Admission and, for a further 12 months thereafter, they will only sell or dispose of their Ordinary Shares through Canaccord or the Company's broker from time to time.

City Code on Takeovers and Mergers

The terms of the Acquisition give rise to certain considerations under the City Code. Brief details of the City Code and the protections it affords, in circumstances such as the Acquisition, are described below. The City Code has not, and does not seek to have, the force of law. It has, however, been acknowledged by government and other regulatory authorities that those who seek to take advantage of the facilities of the securities market in the United Kingdom should conduct themselves in matters relating to takeovers in accordance with high business standards and so according to the City Code.

The City Code is issued and administered by the Panel. The City Code applies to all takeover and merger transactions, however effected, where the offeree company is, among others, a listed or unlisted public company resident in the United Kingdom. GGT is such a company and its shareholders are entitled to the protections afforded by the City Code.

Under Rule 9, any person who acquires, whether by a series of transactions over a period of time or not, shares which (taken together with shares held or acquired by persons acting in concert with him) carry 30 per cent. or more of the voting rights of a company which is subject to the City Code is normally required to make a general offer to all the remaining shareholders of that company to acquire the balance of the shares not held by such person, or group of persons acting in concert.

Rule 9 also provides, among others, that where any person, together with persons acting in concert with him, holds shares carrying more than 30 per cent. but not more than 50 per cent. of a company's voting rights and such person, or any person acting in concert with him, acquires additional shares which increase his percentage of the voting rights in that company, such person is normally required to make a general offer to all the remaining shareholders of that company

An offer under Rule 9 must be in cash and at the highest price paid within the preceding 12 months for any shares in the Company by the person required to make the offer or any person acting in concert.

For the purposes of the City Code, a "concert party" arises where persons acting in concert pursuant to an agreement or understanding, whether formal or informal, actively co-operate, through the acquisition by them of shares in a company, to obtain or consolidate control of a company, irrespective of whether the holding or holdings give *de facto* control.

The members of the Concert Party are deemed to be acting in concert for the purposes of the City Code. Further details of the Concert Party are set out in paragraph 10 of part 6 of this document. The Concert Party comprises the Sellers other than Richard Beresford and Paul Taylor (who hold shares in EDC in trust for the partners of Orchard solicitors which supplied services to EDC, payment for such services being settled in EDC shares).

Without a waiver approved by shareholders on a poll, the Concert Party would be obliged to make a mandatory cash offer for the entire issued ordinary share capital of GGT on completion of the Acquisition. Your Board believes that this consequence is not in the best interests of GGT or its shareholders.

On Admission and completion of the Proposals:

- the Concert Party, including the Proposed Directors plus Richard Beresford and Paul Taylor (whom are not members of the Concert Party), will own 134,166,667 Ordinary Shares representing approximately 72.11 per cent. of the Company's enlarged issued ordinary share capital;
- the Proposed Directors will own 84,545,763 Ordinary Shares representing approximately 45.44 per cent. of the Company's enlarged issued ordinary share capital.

The shareholdings of the Proposed Directors and the remainder of the Sellers on completion of the Proposals and on exercise by members of the Concert Party of the share options described in paragraph 12 of part 6 of this document will be as set out in the table below. The share options vest and are exercisable in amounts pro rata to the total number of options granted to a holder every three months from the date of their grant, being 4 March 2005, and are exercisable at any time until 3 March 2015.

Name	Number of Acquisition Shares	Percentage holding in the Enlarged Share Capital	Percentage holding in the Enlarged Share Capital, as enlarged by the exercise of options, on exercise of share options by the Concert Party
Dominic Johnson	30,088,345	16.17	16.17
Paul Pullinger	29,342,353	15.77	15.78
Chris Cleverly	25,115,065	13.50	13.60
Ron Trenter	0	0	2.08
Other Sellers	49,620,904	26.67	25.60
Total	134,166,667	72.11	73.23

Further details of the holdings of the Sellers are set out in paragraph 10 of part 6 of this document.

The Panel has agreed, however, subject to the passing of Resolution 2 in the notice of EGM by shareholders voting on a poll, to waive the obligation of the Concert Party to make a general offer under Rule 9 that would otherwise arise as a result of the issue of the Acquisition Shares. Accordingly, Resolution 2 is being proposed at the EGM and the vote will be taken on a poll.

On the assumption that the Acquisition and Proposals are completed, since the Concert Party will hold more than 50 per cent. of the Enlarged Share Capital and for so long as they continue to be treated as acting in concert, the Concert Party may accordingly increase its aggregate shareholding. The Panel should be consulted before any individual member of the Concert Party increases its holding through a Rule 9 threshold.

Dividend policy

The Company has not paid dividends since incorporation. It is the intention of the Directors and Proposed Directors that the Company should achieve capital growth. Following Admission, the Company's dividend policy will be reviewed in the light of the availability of distributable reserves and the need to retain funds to finance the further growth of the Group.

Corporate governance

Following Admission, the Directors and Proposed Directors intend to comply with the Combined Code as far as is applicable for a company of the size and nature of the Company.

The Company has adopted the Share Dealing Code for the Board and future employees and will take steps to ensure compliance by the Board and any relevant employees with the terms of this code.

The Directors have implemented such corporate governance procedures and established such committees of the Board as they believe are required, including audit and remuneration committees, for it to comply with the terms of the Combined Code upon completion of the Acquisition, in so far as is appropriate for a company of the size of the Company.

The Directors have established financial controls and reporting procedures which are considered appropriate given the size and structure of the Company. It is the intention of the Directors and the Proposed Directors that these controls will be reviewed in light of the Company's development and adjusted accordingly.

Settlement, dealings and CREST

CREST is a paperless settlement procedure enabling securities to be evidenced otherwise than by a certificate and transferred otherwise than by written instrument.

The Company's articles of association contain provisions concerning the transfer of shares which are consistent with the transfer of shares in dematerialised form in CREST under the Uncertificated Securities Regulations 2001.

Application will be made for the Enlarged Share Capital to be admitted to AIM. Subject to completion of the Acquisition, Admission is expected to take place on 27 June 2005.

Trading in the Enlarged Share Capital on AIM is expected to commence on 27 June 2005. Investors under the Commitment who ask to hold their Commitment Shares in uncertificated form will have their CREST accounts credited with their Commitment Shares on the day of Admission. If such investors ask to receive their Commitment Shares in certificated form, share certificates will be dispatched by first class post within 14 days of Admission.

Extraordinary general meeting

On page 46 of this document is a notice convening an extraordinary general meeting of the Company to be held at the offices of Fladgate Fielder, 25 North Row, London W1K 6DJ at 11.00 a.m. on 24 June 2005 at which resolutions will be proposed to:

- (i) approve the Acquisition;
- (ii) approve the Waiver;
- (iii) appoint Ron Trenter as a director of the Company;
- (iv) appoint Dominic Johnson as a director of the Company;
- (v) appoint Paul Pullinger as a director of the Company;
- (vi) appoint Chris Cleverly as a director of the Company;
- (vii) authorise the Directors to allot Ordinary Shares;
- (viii) authorise the Directors to grant options, and subsequently to issue GGT shares on exercise of such options, to those persons that hold options over EDC's share capital as more particularly described in paragraph 12.5 of part 6 of this document; and
- (ix) disapply section 89 CA 1985.

Under the AIM Rules, if shareholders approve the Acquisition at the EGM, the Company will be admitted to AIM as a new applicant on the first business day after the EGM. If shareholder approval is not given, trading in the Existing Ordinary Shares will continue as normal.

Action to be taken

A form of proxy for use at the EGM is enclosed. Whether or not you intend to be present at the meeting, you are requested to complete, sign and return the form of proxy to the Registrars, Capita Registrars, The Registry, 34 Beckenham Road, Beckenham, Kent BR3 4BR, as soon as possible and in any event so as to arrive not later than 11.00 a.m. on 22 June 2005. The completion and return of the form of proxy will not preclude you from attending the meeting and voting in person should you subsequently wish to do so.

Further information

Your attention is drawn to the further information set out in:

1. part 2 of this document relating to risk factors;
2. part 3 of this document setting out an accountants' report on the Company;
3. part 4 of this document setting out an accountants' report on EDC;
4. part 5 of this document setting out the pro forma financial information for the Enlarged Group;
5. part 6 of this document summarising statutory and general information on the Company, EDC and the Concert Party; and
6. the notice of EGM.

Recommendation

The Directors, who have been so advised by Canaccord, consider the terms of the Acquisition and the Waiver to be fair and reasonable and in the best interests of the Company and its shareholders as a whole. Accordingly, the Directors recommend shareholders to vote in favour of the Resolutions at the EGM as they intend to vote their beneficial holdings in favour of the Resolutions in respect of 4,583,332 Ordinary Shares representing approximately 10.95 per cent. of the Existing Ordinary Shares. In providing advice to the Board, Canaccord has taken into account the Directors' commercial assessments.

Yours faithfully

Risk factors

The investment detailed in this document may not be suitable for all its recipients. Before making an investment decision, prospective investors are advised to consult an investment adviser authorised under the Financial Services and Markets Act 2000 who specialises in investments of the kind described in this document. Prospective investors should consider carefully whether an investment in the Company is suitable for them in the light of their personal circumstances and the financial resources available to them.

In addition to the other relevant information set out in this document, the following specific factors should be considered carefully in evaluating whether to make an investment in the Company:

1. the price at which investors may realise their Ordinary Shares and the timing of any disposal of them may be influenced by a large number of factors, some specific to the Group and its proposed operations, and some which may affect the business sectors in which the Group operates and generally. These factors could include the performance of the Group's operations, large purchases or sales of shares in the Company, liquidity or absence of liquidity in the Ordinary Shares, legislative or regulatory changes relating to the business of the Group and general economic conditions;
2. investors may not recover the whole of their investment. This investment may be volatile and investors could lose all their investment;
3. the Company's future performance, and that of any companies which it invests in, will depend heavily on its ability to retain the services of the Directors and Proposed Directors and to attract, motivate and retain the services of suitable personnel. Although such individuals have entered or would be expected to enter into service agreements or letters of appointment with the Company, the loss of the services of any such individual may have a material adverse affect on the business, operations, revenues and/or prospects of the Group;
4. the ability of the Directors and Proposed Directors to implement the Company's investment strategy could be adversely affected by changes in the economy and/or in the sectors in which they intend to invest. Although the Company has a defined strategy, there can be no guarantee that its objectives or any of them will be achieved on a timely basis or at all;
5. rapid growth in the online gaming business is a relatively recent phenomenon. The Board cannot assure investors that the use of online gaming facilities will continue to develop at the same rate. If the number of online betting and gaming users does not continue to grow or grows more slowly than expected, the business of the Group and Target Companies may be adversely affected;
6. the market for online betting is characterised by rapid technological developments and frequent new product introductions. The emerging character of online gaming products and their rapid evolution will require that the Group continually improves the performance, features and reliability of its internet-based products. The Board cannot assure investors that the Company will be successful in responding quickly, cost effectively and sufficiently to these developments;
7. EDC's operations rely on its ability to download and correlate gaming data from the websites of betting operators and betting exchanges. Whilst EDC's relationship with the betting exchanges is good, there is no guarantee that such parties will continue to permit access to their data. In addition if EDC's hard wired data links were damaged this would leave EDC unable to access the data upon which it relies;

8. EDC is dependent on data and as with all computer based forms of data, there is a risk of corruption or loss of data;
9. new laws, guidelines and regulations may be adopted covering areas such as access, content, taxation, encryption, communications and pricing and quality of the Group's online products and these laws, guidelines and regulations could limit the growth of the Group's business or have an otherwise negative impact on any businesses the Company invests in;
10. to date EDC has not generated revenue but has incurred trading costs. The Group's future success will depend on the ability of the Directors and Proposed Directors to implement its strategy. While the Directors and Proposed Directors are optimistic about the Company's prospects, there is no certainty that anticipated acquisitions, revenues or growth will be achieved;
11. although it is the Company's intention to issue Ordinary Shares to satisfy all or part of the consideration payable for acquisitions, sellers of target companies may not be prepared to accept shares traded on AIM;
12. potential investors should be aware that the value of shares can go down as well as up, and that an investment in a share which is to be traded on AIM is likely to be less realisable and to carry a higher degree of risk than an investment in a share quoted on the Official List of the London Stock Exchange;
13. the Company may face competition from various organisations wishing to invest in similar businesses and companies. Some of these competitors may have greater resources than the Company. There can be no assurance that such competition will not limit the Company's ability to implement its strategy; and
14. it may be necessary for the Company to raise additional capital in future years to finance the growth of the Group through future stages of development. Any such capital may not be available to the Company on favourable terms or at all and will, if existing shareholders choose not to subscribe, lead to a dilution of their interest.

These risk factors do not necessarily comprise all those associated with an investment in the Company.

2 STATUTORY INFORMATION

- 2.1 EDC was incorporated as a company in England and Wales on 3 September 2003 with registered number 04886636.

3 ACCOUNTING POLICIES

3.1 Basis of accounting

The financial information has been prepared in accordance with applicable United Kingdom accounting standards and under the historical cost convention.

Going concern

The directors of EDC have today finalised a transaction in which EDC has been acquired by AIM listed Global Gaming Technologies plc. The transaction is a reverse transaction under the AIM rules as a result of the former shareholders of EDC holding 72.11% of the enlarged share capital of Global Gaming Technologies plc. Co-terminous with the acquisition Global Gaming Technologies plc has raised £925,000 before expenses by way of a Placing of ordinary shares. The proceeds raised from the Placing will be used, in part, to fund this company.

On this basis the directors consider it appropriate to prepare the financial statements on a going concern basis.

3.2 Intangible fixed assets

Software licenses are included at cost and amortised on a straight line basis over their useful economic life of two years.

3.3 Deferred taxation

Deferred tax is recognised on all timing differences where the transactions or events that give EDC an obligation to pay more tax in the future, or a right to pay less tax in the future, have occurred by the balance sheet date. Deferred tax assets are recognised when it is more likely than not that they will be recovered. Deferred tax is measured using rates of tax that have been enacted or substantively enacted by the balance sheet date.

3. Articles of association

The rights attaching to the Ordinary Shares, as set out in the articles of association of the Company, contain, amongst others, the following provisions:

Votes of members

- (a) Subject to any special terms as to voting or to which any shares may have been issued, no shares having been issued subject to any special terms, on a show of hands every member who being an individual is present in person or, being a corporation is present by a duly authorised representative, has one vote, and on a poll every member has one vote for every share of which he is the holder.
- (b) Unless the directors determine otherwise, a member of the Company is not entitled in respect of any shares held by him to vote at any general meeting of the Company if any amounts payable by him in respect of those shares have not been paid or if the member has a holding of at least 0.25 per cent. of any class of shares of the Company and has failed to comply with a section 212 notice.

Variation of rights

Subject to the provisions CA 1985, if at any time the capital of the Company is divided into different classes of shares, the rights attached to any class may be varied or abrogated with the consent in writing of the holders of at least three-fourths in nominal value of that class or with the sanction of an extraordinary resolution passed at a separate meeting of the holders of that class but not otherwise. The quorum at any such meeting is two or more persons holding, or representing by proxy, at least one-third in nominal value of the issued shares in question.

Transfers of shares

- (a) Subject to the provisions of the articles relating to CREST, all transfers of shares will be effected in the manner authorised by the Stock Transfer Act 1963 and must be signed by or on behalf of the transferor and, in the case of a partly paid share, by or on behalf of the transferee. The transferor is deemed to remain the holder of the share until the name of the transferee is entered in the register of members in respect of it.
- (b) The directors may, in their absolute discretion and without assigning any reason, refuse to register the transfer of a share in certificated form if it is not fully paid or if the Company has a lien on it, or if it is not duly stamped, or if it is by a member who has a holding of at least 0.25 per cent. of any class of shares of the Company and has failed to comply with a section 212 notice. In exceptional circumstances approved by the London Stock Exchange, the directors may refuse to register any such transfer, provided that their refusal does not disturb the market.
- (c) The articles of association contain no restrictions on the free transferability of fully paid ordinary shares provided that the transfers are in favour of not more than four transferees, the transfers are in respect of only one class of share and the provisions in the articles of association, if any, relating to registration of transfers have been complied with.

Payment of dividends

Subject to the provisions CA 1985 and to any special rights attaching to any shares, the shareholders are to distribute amongst themselves the profits of the Company according to the amounts paid up on the shares held by them, provided that no dividend will be declared in excess of the amount recommended by the directors. A member will not be entitled to receive any dividend if he has a holding of at least 0.25 per cent. of any class of shares of the Company, and has failed to comply with a section 212 notice. Interim dividends may be paid if profits are available for distribution and if the directors so resolve. The Company or its directors may fix a date as the record date for a dividend provided that the record date is not later than the date on which the dividend is paid or made.

Unclaimed dividends

Any dividend unclaimed after a period of 12 years from the date of its declaration will be forfeited and will revert to the Company.

Untraceable shareholders

The Company may sell any share if, during a period of 12 years, at least three dividends in respect of such shares have been paid, no cheque or warrant in respect of any such dividend has been cashed and no communication has been received by the Company from the relevant member. The Company must advertise its intention to sell any such share in both a national daily newspaper and a newspaper circulating in the area of the last known address to which cheques or warrants were sent. Notice of the intention to sell must also be given to the London Stock Exchange.

Return of capital

On a winding-up of the Company, the balance of the assets available for distribution will, subject to any sanction required by CA 1985, be divided amongst the members.

Borrowing powers

The directors may exercise all the powers of the Company to borrow money and to mortgage or charge its undertaking, property and uncalled capital, or any part if it, and subject to the provisions CA 1985, to issue debentures and other securities whether outright or as collateral security for any debt, liability or obligation of the company or of any third party.

The Company may by ordinary resolution also vote extra fees to the directors which, unless otherwise directed by the resolution by which it is voted, will be divided amongst the directors as they agree, or failing agreement, equally. The directors are also entitled to be repaid all travelling, hotel and other expenses incurred by them in connection with the business of the Company.

Subject to CA 1985, the Company may by ordinary resolution suspend or relax this provision to any extent or ratify any transaction not duly authorised by reason of a contravention of it.
- (f) In the absence of some other material interest than is indicated below, a director is entitled to vote and be counted in the quorum in respect of any resolution concerning any of the following matters:

 - (vi) any contract, arrangement, transaction or other proposal concerning the adoption, modification or operation of an employee share scheme which includes full time executive directors of the Company and/or any subsidiary or any arrangement for the benefit of employees of the Company or any of its subsidiaries and which does not accord to any director any privilege or advantage not generally accorded to the employees to whom such a scheme relates; and

- (vii) any contract, arrangement, transaction or proposal concerning insurance which the Company proposes to maintain or purchase for the benefit of directors or for the benefit or persons including the directors.
- (g) If any question arises at any meeting as to the materiality of a director's interest or as to the entitlement of any director to vote and such question is not resolved by his voluntarily agreeing to abstain from voting, such question must be referred to the chairman of the meeting and his ruling in relation to any other director will be final and conclusive except in a case where the nature or extent of the interest of such director has not been fully disclosed. If the question concerns the chairman, it must be referred to such other director present at the meeting, other than the chairman, as the directors present appoint.

Completion of these agreements is conditional on the completion of the agreement described in paragraph 7.1.9 and on Admission. The Minority Sellers agreed with the Company and Canaccord not to dispose of any interest in the shares in the capital of the Company for a period of 12 months from Admission, except in the case of: (a) an intervening court order; (b) a disposal pursuant to a general offer for the entire ordinary share capital of the Company; (c) the giving of an irrevocable undertaking to accept a general offer for the entire ordinary share capital of the Company; (d) a sale to an offeror or potential offeror; (e) acceptance of an offer; or (f) in the case of a director, on the death of that director. - 7.1.14 on 31 May 2005, the Company and Canaccord entered into a nominated adviser and broker agreement. Under this agreement Canaccord will receive an annual retainer of £40,000 for on-going broker and nominated adviser services. The Company agreed to comply with its legal obligations and those of AIM and the London Stock Exchange and to consult and discuss with Canaccord all of its announcements and statements and to provide Canaccord with any information which Canaccord believes is necessary to enable it to carry out its obligations to the Company or the London Stock Exchange as nominated adviser and broker.

- 7.2.7 the option agreements described in paragraph 12 of this part 6.

8. Working capital

It is the Directors' and Proposed Directors' opinion, having made due and careful enquiry, that the working capital available to the Company, following the Placing and assuming that the Commitment is subscribed in full, will be sufficient for its present requirements, that is for at least 12 months from Admission.

9. Taxation

The following paragraphs are intended as a general guide only for shareholders who are resident and ordinarily resident in the United Kingdom for tax purposes, holding Ordinary Shares as investments and not as securities to be realised in the course of a trade. They do not purport to be comprehensive nor to describe all potential relevant considerations. They are based on current legislation and UK Inland Revenue practice. Any shareholder or prospective purchaser of Ordinary Shares who is in any doubt about his tax position or who is subject to taxation in a jurisdiction other than the UK, should consult his own professional adviser immediately.

9.1 Stamp duty and stamp duty reserve tax

No stamp duty or stamp duty reserve tax is payable on the issue of the Ordinary Shares.

Any subsequent disposal of the Ordinary Shares will generally give rise to payment of ad valorem stamp duty on the transfer document at the rate of 50p per £100, or part, on the amount or value of the consideration paid, subject to minimum duty of £5. Paperless transfers are generally subject to stamp duty reserve tax (unless, in general, the transfer of the relevant shares is duly stamped with ad valorem duty), generally at the rate of 0.5 per cent. of the amount or value of the consideration paid. Liability to pay any stamp duty or stamp duty reserve tax is generally that of the transferee or purchaser. Where a purchase or transfer is effected through a member of the London Stock Exchange or a qualified dealer, the member or dealer will normally account for the collection and payment of the tax, but in all other cases the transferee or purchaser must account for the tax to the Inland Revenue.

Persons operating clearance services or depositary receipt schemes may be required to account for stamp duty and stamp duty reserve tax at rates higher than those referred to above.

9.2 Taxation of chargeable gains

A subsequent disposal of the Ordinary Shares by persons resident or ordinarily resident in the United Kingdom in a tax year which gives rise to gains may be liable to capital gains tax (individuals and trustees) and corporation tax (companies). Liability to tax and the rate of tax will depend on the shareholder's circumstances and the availability of exemptions or allowable losses.

Indexation allowance, which increases the acquisition cost of an asset in line with the rise in the retail price index, is available for corporate shareholders during the period of ownership.

On 5 April 1998, "taper relief" was introduced which applies to individual shareholders and trustees (but not to corporate shareholders) who hold shares in certain companies including companies whose shares are admitted to trading on AIM. Taper relief reduces the proportion of any chargeable gain assessable to capital gains tax by reference to the period of ownership of the ordinary shares by a shareholder. The rate of taper depends upon whether the shareholder holds the ordinary shares as "business" or "non-business" assets, with the speed of taper relief being accelerated for ordinary shares held as "business" assets.

Individuals and certain trusts have an overall annual exemption from capital gains tax for the first £8,200 of chargeable gains in the current tax year. Settlements have an equivalent exemption of up to £4,100 in the current tax year.

Generally, losses realised on the disposal of assets may be set against other gains made during the tax year or carried forward and set against gains in future tax years.

Different tax treatment applies to persons who trade in securities.

Persons who are neither resident nor ordinarily resident in the United Kingdom will not normally be liable to tax in the United Kingdom in respect of any gain accruing to them on a disposal of the Ordinary Shares. The terms of a relevant double taxation treaty may apply to persons with dual residence.

9.3 Taxation of dividends

When a company pays a dividend it is not required to withhold tax at source. A tax credit equal to ten per cent. of the dividend and the associated tax credit, attaches to a dividend, i.e. the tax credit is equivalent of one ninth of the dividend.

Individual shareholders resident in the United Kingdom who pay tax at the lower or basic rate only, which, in respect of dividend income, is ten per cent., have no further tax liability in respect of the dividend. Individual shareholders resident in the United Kingdom who pay tax at the higher rate, pay tax in respect of dividend income at 32.5 per cent. on the dividend received and the tax credit, but will be able to offset the tax credit against such liability. An individual UK resident shareholder who does not pay income tax or whose liability to income tax does not exceed the amount of the associated tax credit will not be entitled to claim repayment of the associated tax credit attaching to the dividend.

Whether individual shareholders who are not resident in the United Kingdom for tax purposes (other than Commonwealth citizens, EEA nationals, residents of the Channel Islands or the Isle of Man and certain other categories of shareholders who are entitled to a tax credit on dividends received as if they were resident in the United Kingdom) are entitled to claim the whole or any part of any tax credit in respect of a dividend will usually depend on the terms of any applicable double tax treaty between the United Kingdom and their jurisdiction of residence. Such shareholders may be subject to tax on such dividends in their jurisdiction of residence and should consult their own professional advisers.

United Kingdom resident corporate shareholders (other than a share dealer) are not normally liable to corporation tax on any dividends received.

For dividends paid to trustees of UK resident discretionary or accumulation trusts, the gross dividend will be subject to UK income tax at the "Schedule F trustee rate" of 32.5 per cent. To the extent that the associated tax credit exceeds the trustees' liability to account for income tax, the trustees will have no right to claim repayment of the associated tax credit. Trustees who are in any doubt as to their position should consult their own professional advisers immediately.

Persons who are not resident in the UK should consult their own tax advisers on the possible application of such provisions and on what relief or credit may be claimed for any such tax credit in the jurisdiction in which they are resident.

These comments are intended only as a general guide to the current tax position in the UK as at the date of this document. The comments assume that Ordinary Shares are held as an investment and not as a trading asset. The levels and basis of taxation can change. The value of a relief from taxation depends upon the circumstances of the taxpayer. If you are in any doubt as to your tax position, you should contact your professional adviser without delay.

- 10.2 Assuming completion of the Proposals, the Sellers will hold, in aggregate, 72.11 per cent. of the Enlarged Share Capital.
- 10.3 Dominic Johnson, Paul Pullinger and Chris Cleverly accept responsibility for the information about EDC and themselves contained in this document. To the best of their knowledge and belief, having taken all reasonable care to ensure that such is the case, the information about EDC and themselves contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.
- 10.4 The Sellers accept responsibility for the information about themselves contained in this document. To the best of their knowledge and belief, having taken all reasonable care to ensure that such is the case, the information about themselves contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

- 10.5 In the 12 months preceding the date of this document, the Proposed Directors, the Sellers and persons acting in concert with the Sellers have not held or dealt in shares of the Company and it is the intention of the Sellers not to acquire any such shares prior to completion of the Acquisition.
- 10.6 In the 12 months preceding the date of this document, the Company, the Directors, their immediate families and persons connected with the Directors have not owned or dealt in any shares of EDC or in the Sellers, nor do they own any shares in EDC or the Sellers as at the date of this document.
- 10.7 No subsidiary, pension fund, employee benefit trust or connected adviser of the Company or their respective associates holds or has dealt in the shares of any of EDC or the Sellers.
- 10.8 Except for the Acquisition Agreement and as described in paragraph 5.5 of this part 6, there are no agreements, arrangements or understandings between the Sellers and the Company or their respective directors or shareholders, or any of them, having any connection with or dependence upon the Acquisition. So far as the Directors and Proposed Directors are aware, no shareholder of the Company has irrevocably committed to vote in favour of the Acquisition or Waiver.
- 10.9 Except as disclosed in paragraph 5, 10.1 and 12 of this part 6, none of the Directors or Proposed Directors or any member of their immediate families was interested in any relevant securities of the Company at the date of this document nor had any such person dealt for value in such shares in the 12 months preceding the date of this document, and no bank, stockbroker, financial or other connected adviser (other than an exempt market maker) to the Company (nor any person controlling, controlled by, or under the same control as such bank, stockbroker, financial or other connected adviser) nor any pension fund or employee benefit trust of the Company or any employee benefit trust of any associate of the Company, nor any person whose investments are managed on a discretionary basis by a fund manager (other than an exempt market maker) which is controlled by, or controls or is under the same control as, the Company or any bank, stockbroker, financial or other connected adviser to the Company, owned or controlled any relevant securities of the Company at the date of this document nor has any such person dealt for value in such shares in the 12 months preceding the date of this document.
- 10.10 There are no arrangements in place or envisaged where any of the Sellers will transfer any of their Ordinary Shares to other persons pursuant to the completion of the Acquisition.
- 10.11 The Acquisition is not being financed by any external source of finance. There are therefore no arrangements in place nor are any required for the payment of interest on repayment of security for any liability as a result of the Acquisition.
- 10.12 The members of the Concert Party have no intention other than to see the continuation of the Company's business and have no plans to introduce any major changes in the Group's business. The Company has no employees (since the Directors are self employed consultants) and therefore the Concert Party has not been asked to safeguard employment rights.

References in this paragraph 10 to:

- (A) an "associate" are to:
 - (1) GGT's and EDC's parents, subsidiaries and fellow subsidiaries, and their associated companies, and companies of which such companies are associated companies;
 - (2) connected advisers and persons controlling, controlled by or under the same control as such connected advisers;
 - (3) the Directors and Proposed Directors and the directors (together with their close relatives and related trusts) of any company referred to in (1) above;
 - (4) the pension funds of GGT and EDC and of any company referred to in (1) above;
 - (5) any investment company, unit trust or other person whose investments an associate manages on a discretionary basis in respect of the relevant investment accounts;
 - (6) an employee benefit trust of GGT or EDC or of any company referred to in (1) above; and
 - (7) any company having a material trading arrangement with GGT or EDC.
- (B) "bank" does not apply to a bank whose sole relationship with the Company covered in paragraph (A)(1) above is the provision of normal commercial banking services or such activities in connection with the Acquisition as registration work; and
- (C) "relevant securities" means the Existing Ordinary Shares, the EDC shares and securities convertible into, rights to subscribe for, options (including traded options) in respect of and derivatives referenced to the Existing Ordinary Shares or EDC shares.

For the purposes of this paragraph 10, ownership or control of 20 per cent. or more of the equity share capital of a company is regarded as the threshold for associated company status and "control" means a holding, or aggregate holding, of shares carrying 30 per cent. or more of the voting rights attributable to the share capital of the Company which are currently exercisable at a general meeting, irrespective of whether the holding or aggregate holdings give *de facto* control.

11. Middle market quotations

The Company's Ordinary Shares were admitted to trading on AIM on 29 November 2004. The closing middle market quotations for Ordinary Shares as derived from the AIM Appendix of the Daily Official List of the London Stock Exchange for 29 November 2004 and for the first dealing day in each of the months since admission and for 2 March 2005, being the date of the Suspension were:

Date	Share price
29 November 2004	8.75p
1 December 2004	8.75p
4 January 2005	8.25p
1 February 2005	8.5p
1 March 2005	11.25p
2 March 2005	11.25p

12. Share options

- 12.1 Pursuant to agreements dated 4 March 2005 EDC granted share options over 624 ordinary shares in EDC to the Proposed Directors. The options are exercisable at par value of £1 in tranches, between 4 March 2005 and 3 March 2015. The options vest in pro-rata amounts every three months from their date of grant. Exercise of the options is not subject to performance criteria.
- 12.2 Pursuant to agreements dated 4 March 2005 EDC granted share options over 930 ordinary shares in EDC to certain of its employees and consultants. The options are exercisable at par value of £1, in tranches, between 4 March 2005 and 3 March 2015. The options vest in pro-rata amounts every three months from their date of grant. Exercise of the options is not subject to performance criteria.
- 12.3 By a restated agreement between EDC and its chief technology officer, Sam Glover, dated 1 February 2005 EDC granted performance related options over 400 ordinary shares in EDC to Mr Glover, at an exercise price of £1 per ordinary share.
- 12.4 The Company has offered to all the holders of options over EDC's share capital the ability to rollover their options into new options over GGT's share capital. These new options over GGT's share capital amount to options over 19,320,882 Ordinary Shares, equivalent to 9.41 per cent of the Enlarged Share Capital as enlarged by the issue of Ordinary Shares on exercise of such options. For the reasons set out in paragraph 12.5, the new options will be exercisable at 0.25p per Ordinary Share. If the Company's offer as described in this paragraph is accepted and subject to the passing of resolution 7 at the EGM, the Proposed Directors will be interested in options over Ordinary Shares as set below, representing 7,758,192 Ordinary Shares or four per cent of the Enlarged Share Capital as enlarged by the issue of Ordinary Shares on exercise of such options by the Proposed Directors.

Proposed Director	Options over Ordinary Shares	Exercise Price per Ordinary Share
Ron Trenter	4,028,292	0.25p
Dominic Johnson	1,243,300	0.25p
Paul Pullinger	1,243,300	0.25p
Chris Cleverly	1,243,300	0.25p

- 12.5 Due to (a) the difference in the par value of the shares in EDC over which options are held as described above and the par value of the GGT shares in respect of which such options will be rolled into; (b) the wish for Enterprise Management Incentive status to be preserved by ensuring that the overall option price payable and the market value of the replacement GGT shares under option remains the same when compared with the original EDC options; (c) the need to ensure that option holders obtain options over the equivalent percentage of shares in GGT as they currently hold over EDC shares; and (d) that the aggregate cost of exercise remains the same; it is proposed to issue certain of the GGT option shares at par using the aggregate subscription price that would have been payable had the option holder exercised his options over EDC shares, with the balance of any shares being issued to satisfy the above requirements to be paid up by application of part of the share premium account of GGT in paying up such additional shares as bonus shares to be issued to the option holders on a non-pre-emptive basis. A special resolution to authorise this process is therefore being sought from GGT shareholders at the EGM.
